CONVENTIONAL SERIES DC Electric SCISSOR LIFTS

The Conventional Series DC Electric Scissor Lifts offer high capacity and large platform areas, making them suitable for any on-slab application. Featuring variable speed rear wheel hydraulic drive, the Conventional Series offers working heights up to 11,9 m and 25% gradeability.

Boasting an industry leading 590 kg capacity, the SJIII 4620 also features a stowed height of only 2,0 m for easy transport and access through some low overhead doors.

A standard 1,2 m roll out extension deck can be secured in multiple positions, and all three models can be driven at full height. Consistent with Skyjack's robust and reliable design features, the Conventional Series DC Electric Scissor Lifts utilize Skyjack's standard colour coded and numbered wiring system with analog based controls.
